

PERMISSION SET QUERIES

CHEAT SHEET

QUERY TO FIND PERMISSION SETS

```
select ID, Name, label from PermissionSet where label like 'XX%'
```

QUERY TO GET FIELD PERMISSIONS THAT ALREADY EXIST

```
select Id, Parent.Name, SubjectType, PermissionsEdit, PermissionsRead, ParentId, Field from FieldPermissions where subjecttype = 'XXX' and Field = 'Object.FieldAPI' and parent.name like '%XX%' (to narrow down the list of Permission Sets in the results)
```

FIELDS NEEDED TO IMPORT FIELD PERMISSIONS

- ParentId (get from Permission Set query above)
- sObjectType
- PermissionsEdit (True/False)
- PermissionsRead (True/False)
- Field
